

ENSENADA MISSIONS TRIP

2025

ENSENADA MISSIONS TRIP

WHAT

We will have the amazing opportunity to bless a family with a brand-new home! In just two life-changing days, the volunteers will work with the family who is receiving the home and build it from the ground up. Participating in a Homes of Hope build can have a lasting impact, not only on the life of a family but also on the build team.

WHY

Participating in a Home of Hope build can have a lasting impact, not only on the life of a family but also on the build team. When a family receives a home, it changes their outlook on the future. By breaking the cycle of poverty in one generation, you can positively influence generations to come. A safe and clean home can end poverty by eliminating the need to save up for a house, allowing families to allocate their resources towards their children's education, healthier food, and reduce the risk of illnesses associated with living on a dirt floor.
